Mr. and Mrs. Romero arrived in San Francisco from China on Thursday, and Mrs. Romero died in that city Friday. She is the daughter of Senator Stewart and her two sons are now in this city under the care of Paris Ellis.

If the party who took, stole or appropriated 50 feet of old garden hose from the Steamer Engine Houses will return the same, he she or they will find a piece of new hose which has never been used, to which they will be welcome as it may be their hydrant better than the old piece.

Russell Harrison is on the war-path and says of the Chicago Herald:

"Every lover of decency and fairplay, no matter what party he may belong to, will I am sure, resent the course of the Chicago Herald in publishing a lot of contemptible and disgraceful fabrications, claiming that my wife was not well treated by my mother and sister. Everyone who is familiar with family affairs at the White House, and every one who knows the family relations, well know that the Herald's story is an outrage on decency and an insult to truth.

"I cannot understand how any paper, claiming to be respectable, would permit the use of its columns for the publication of such stories. Partisanship is no excuse for aiming a poisoned shaft at the breast of a woman."

Kendler's Execution.

Final preparation for putting William Kendler to death are being made. C. F. Barnes, city electrician of Rochester, has arrived in Auburn, N. Y., says a dispatch dated the 1st, and immediately went to the prison, where he was closeted with Warden Durston.

Mr. Barnes will have charge of the death dealing apparatus and will probably be the one to push the fatal switch.

The switchboard and other mechanical appliances for controlling the current have arrived from Dannemora prison, where they had been sent for the execution of Chapleau.

It is generally believed that Kendler will die on Monday. Invitations to be present at the execution have not yet been sent, but it is understood that Warden Durston will have them out by Sunday.

Peculiar.

Large amounts of silver bullion are going to London at present. Over a million and a quarter ounces were shipped last week, and this week nearly as much has been ordered for shipment.

The announcement was made recently that 400,000 ounces more had been ordered for shipment on this week's shipment.

This has given rise to much comment because it had been predicted that as soon as the silver bill was passed this country would be flooded with the silver of foreign countries.

Church Donation.

The new Congregational Church at Mooreland, Iowa, was dedicated on the 29th with impressive ceremonies, but when the minister pronounced the benediction many people who had an anxious desire to arise, kept their seats for some 15 minutes or so and when they did get up many small donations were made in the seats, such as fragments of silk dresses, swallow tail coats and other necessities in the way of dress. The church had just been varnished and the flock were evidently stuck on the surroundings.

Neck Broken.

A young man by the name of Chas. Barlow, engaged by the Candelaria Mill and Mining Co., fell from the pulley shafting, a distance of 20 feet, striking on his head, Thursday, breaking his neck instantly, after which the body was jerked into the timbers by the pulley belts and frightfully mangled.

The boy has a widowed mother in Hawthorne and much sympathy is felt for the bereaved parent. No blame is attached to the Mill Company.

Lost.

The following described young man, Sanford Goodwin, has mysteriously disappeared. When last heard from he was in Sumner, California, April 21st, 1899.
